UX Design Diploma: Project 15

Annotations

Hotel Track

Desktop

By Kathryn Wheeler

Objective

- In this project, you'll create annotations for your desktop or mobile app. You've already designed the screens in the app for your prototype. This is about adding the extra information that developers need to build the product accurately.

Tasks

- [ ] Add annotations for each screen

Annotations Guide

Annotations have been applied with Figma’s comment feature.
